What is CommunitySure?

CommunitySure is an exclusive insurance product available to members of the PICA group which delivers key benefits to you and is underwritten by QBE and CHU, Australia's largest Strata Insurer.

The Prudential Investment Company of Australia (PICA) (ACN 004 266 817) has entered into an agreement with QBE (ACN 003 191 035) and Willis Australia Limited (ACN 000 321 237) in relation to the provision of insurance policies under the CommunitySure brand. (This product is distributed by PICA members as authorised representatives or by PICA members directly with CHU.)

* Please note these cover enhancements are provided without additional premium cost to you and there is no premium saving in the event that the enhancements are removed. In the event that your CommunitySure cover is transferred to a Non-PICA strata manager, your cover limits at renewal will revert to the cover levels you requested prior to receiving the CommunitySure product offering and CHU standard policy terms and premiums payable for increased limits will apply.

This is a summary of the CommunitySure policy benefits. Please refer to the product disclosure statement for full details.
